

VBS Scripting Reference

Welcome to the BISimulations SQF Scripting Reference

This site provides a reference for the SQF scripting commands and functions available to extend the functionality of VBS.

For more information about how to write and use scripts, see the VBS3 Scripting Manual in the `/docs/PDF/` folder of your VBS3 installation.

An offline version of this reference site, `wiki.zip`, is also available in the `/docs/` folder of your VBS3 installation.

Latest Release

This reference is up-to-date for:

- VBS4 19.1.1 - *January 2020*
- VBS3 20.1.0 - *February 2020*
