

fn_vbs_arrayPop

Introduced in	
Version:	1.19
Description	
Description:	Removes the last (rightmost) element of an array and returns it. The array is modified by reference.
Syntax	
Syntax:	array call fn_vbs_arrayPop
Parameters:	<ul style="list-style-type: none">array: Array - Array to remove from.
Return Value:	Anything - Element removed from the rightmost side of the array.
Warning	
When using functions in VBS versions older than 3.4 , certain limitations and requirements should be kept in mind - the main ones being that capitalization of the function name is crucial, and that #include "vbs2\headers\function_library.hpp" has to be included in every script that utilizes it.
